ABRAM COX STOVE CO
PHILADELPHIA CHICAGO

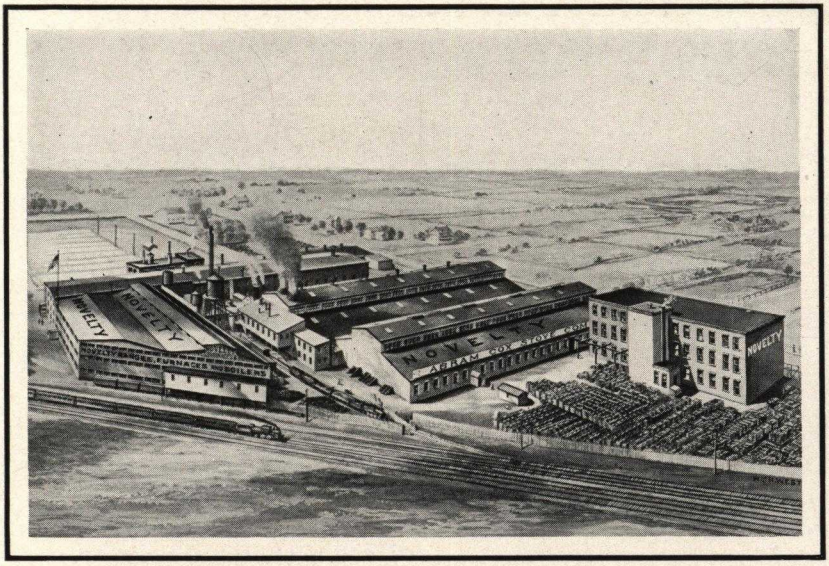
GENERAL OFFICE BUILDING, FOUNDRY AND WAREHOUSES
American and Dauphin Streets, Philadelphia

Foreword

We take a great deal of pleasure and pride in submitting this Catalogue to our friends, because it is a means of displaying what we are convinced is the best built and most up-to-date line of coal and combination coal and gas ranges and coal heating stoves we have ever placed on the market.

Any quantity of individual circulars can be furnished for each range or stove upon the request of our dealers or the general public. These circulars give a more complete description of each piece of goods than can possibly be furnished in the limited space of a book of this sort.



FOUNDRY AND WAREHOUSES, LANSDALE, PA.
The two factories shown on this and the previous page are capable of turning out the largest variety of Heating and Cooking Apparatus in the World

For the particular use of Builders, Architects and Dealers, we publish a special Catalogue No. 66-A, showing Hotel and Cabinet Ranges, Warm Air Furnaces; and No. 65-C, showing Steam and Hot Water Boilers, Tank Heaters and Laundry Stoves.

The name "NOVELTY" as applied to Stoves and Ranges is a household word in practically every city, town and hamlet all over our own United States.

"NOVELTY" means a Stove or Range perfect in detail; artistic, correctly constructed of the highest grade material and workmanship and operated with the greatest economy in fuel and food.

ABRAM COX STOVE COMPANY

PHILADELPHIA : : : : CHICAGO

THE NOVELTY LINE

Industrial and Commercial success is built upon the Value of the Commodity and the Quality of the Service of the Manufacturer.

THE VALUE OF THE COMMODITY

The Value of the Commodity is gauged by materials used, the dignity of the design and the general appearance. When heating and cooking apparatus alone are considered, do not overlook the efficiency and economy in the consumption of fuel. It is what you get for your money that counts most.

THE QUALITY OF THE SERVICE

Prompt shipments, courtesy, judicious advertising and co-operation between the foundry, dealer and consumer in all things relating to getting and keeping satisfied customers under all circumstances is the measure of service. You will always find us willing and anxious to aid all those who need us.

We feel proud of the fact that for the past 70 years we have led in the introduction and perfecting of apparatus for the proper and economical preparation of food It is a great work, worthy of our best efforts.

DISCOUNTS AND TERMS

All prices will be found in separate lists, which will be sent to the trade only.

SHIPMENTS

We select shipping route when route is not specified by the buyer, and ship at released rate when not otherwise directed. All goods are sold and shipped F. O. B. Philadelphia, with freight allowed to destination where rate does not exceed 25 cents per cwt. Upon delivery of goods in good order to the common carrier, our responsibility ceases, and claims for delay or damage must be made upon the transportation company.

TERMS OF PAYMENT

All goods are due and payable in 60 days from date of invoice, and a cash discount of 2% will be allowed if payment is received on or before the tenth of the month following date of invoice. Interest will be charged on overdue accounts.

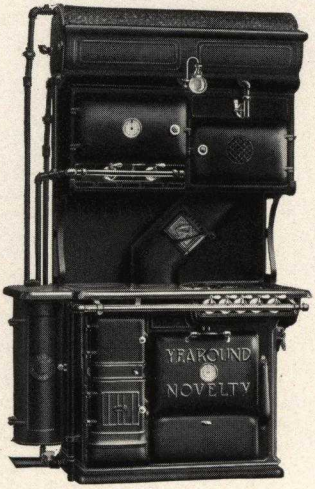
PRICES AND DISCOUNTS

are subject to change without notice.

YEAROUND NOVELTY

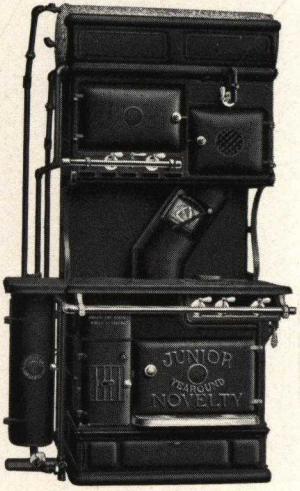
The most complete combination Gas and Coal Ranges ever built

YEAROUND NOVELTY



Two ranges in the space for one, each equipped with every accessory.

JUNIOR YEAROUND



The " Yearound Novelty " has White Enameled Broiler Pan and Burner Tray, Porcelain Valve Handles, Gun Metal Top and Permanent Black Finish, Novelty Draft Check in Smoke Pipe.

In addition to the above, every Range has its own lighting fixture directly over the cooking top where it is most needed, and forms A and B have a double Copper Coil Gas Water Heater.

The "Junior Yearound," while not quite so elaborate as the regular " Yearound," is equipped for every use of both fuels.

Be sure to send for a detailed description of these wonderful Ranges and always keep a supply of circulars on hand for your customers.

PRINCESS NOVELTY

THE HIGHEST IN GRADE AND THE FINEST IN FINISH

Built to satisfy the most exacting and critical buyers. We feel that it fills the bill better than any other range on the market. It embodies all the various suggestions received from time to time that would add quality and value.

The "Princess" is the Range Par Excellence, because of its plain, dignified dress, its solid End Shelf, its Screw Damper in the Ashpit Door, its Grate Panel, which locks securely into position without the use of bolts, its absolutely dust-proof body and its indestructible automobile spring on the oven door.

This Range is regularly equipped with the beautiful Gun Metal Top, Permanent Black Finish and Aluminized Parts (Oven, Ashpit and inside of all doors).

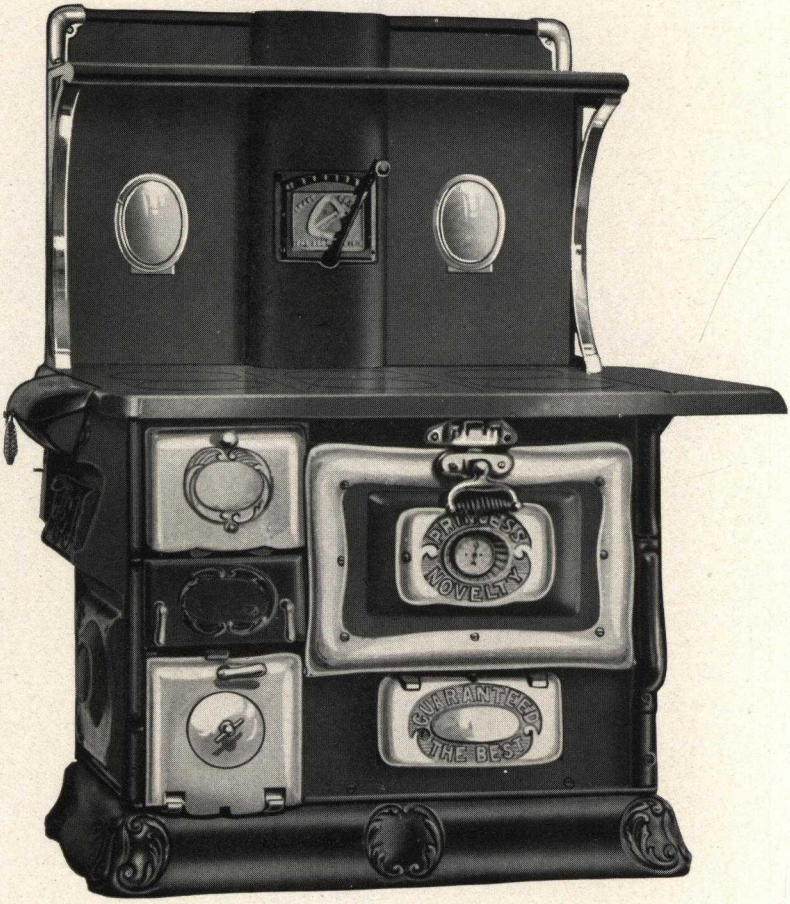
EXTRA EQUIPMENT

The End Waterfront for ordinary use up to 30 gallons. The Box Waterfront will supply a 60-gallon Hot Water Tank. Duplex Grates will always be furnished unless Triplex Grates are specified.

PRINCESS NOVELTY

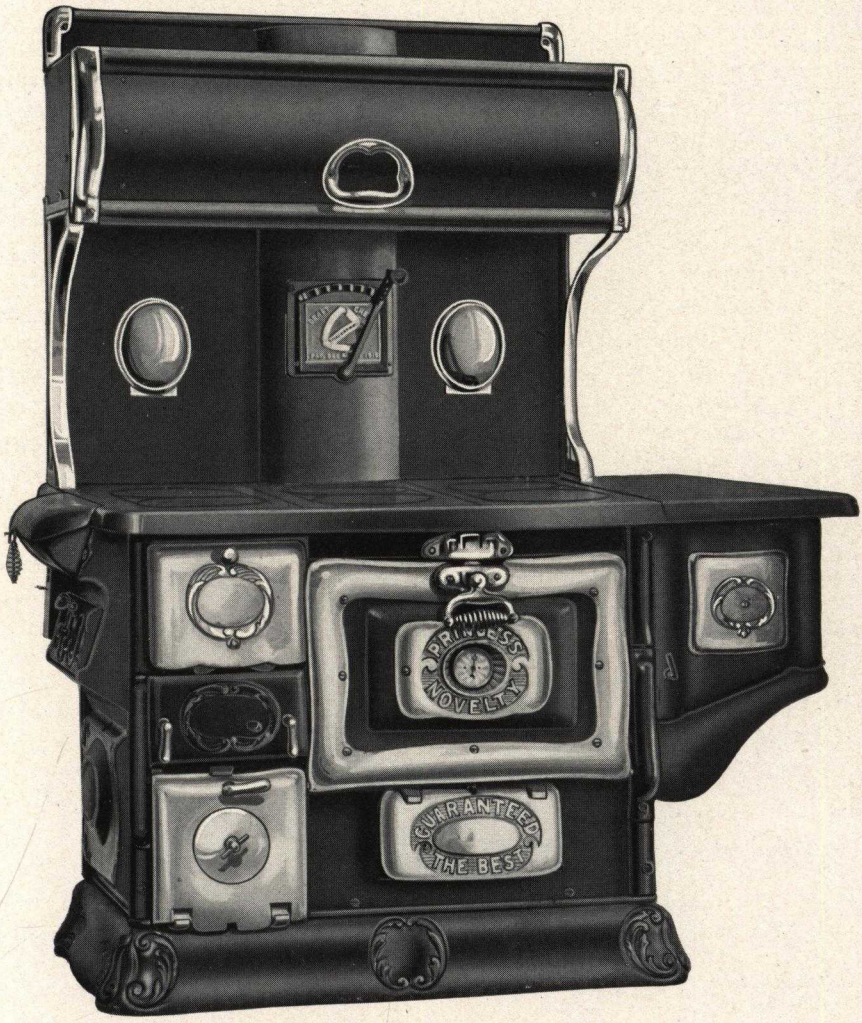


WITH No. 125 STEEL HIGH SHELF
AND END SHELF

The saving in fuel and labor alone will more than pay the entire cost of the "Princess."

Every housekeeper takes pride in her kitchen. Every owner of a "Princess" is proud of her Range.

PRINCESS NOVELTY



WITH No. 8 HIGH CLOSET AND RESERVOIR

The suburban and country trade often requires a range equipped with a reservoir.

The "Princess" Reservoir is large and exceedingly easy to heat. The regular equipment includes a white porcelain tank.

SUBURBAN NOVELTY

"THE HEAVY DUTY RANGE"

Devoted to the cause of reducing the cost and increasing the pleasure of living. Used everywhere by those who want the "Novelty" quality large range.

The "Suburban Novelty" will supply all the hot water wanted for from 2 to 5 bathrooms, as well as the maximum for kitchen purposes. The firebox is spacious, and can be equipped with a one, two or three-way waterfront. It has heavy, smooth castings; beautiful in appearance, therefore it is easy to keep polished and clean. The large ashpit has special dust chutes arranged to insure that all the ashes go into the pan. The solid ends on this Range are constructed so that no strips have to be bolted on to give it the proper finish. If the Novelty Draft Check is used, the fire can be held for 24 hours without removing a lid and absolutely no coal gas will escape into the house.

The "Suburban Novelty" has a smooth working adjustable broiler lid, with a four-section reducing cover over the fire.

This Range is made with either left or right-hand oven.

A thermometer in the oven door and an aluminized oven are part of the regular equipment,

An ash chute bottom in the ashpit can be furnished when specified. This is a great convenience as it has a direct connection to an inclosed ash receptacle in the cellar, thus eliminating the necessity of carrying the ashes downstairs.

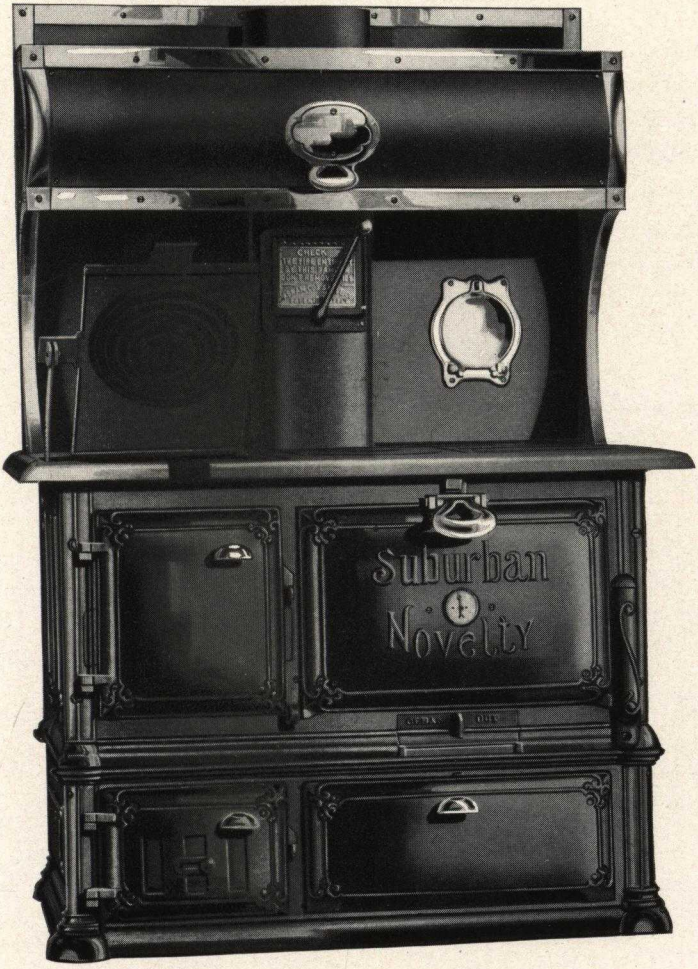
SUBURBAN NOVELTY



WITH HIGH CLOSET

The perfect adaptability of the "Suburban Novelty" to first-class, modern cooking requirements, its convenience and its economy, are always strongly apparent to those who actually use it. The user of the "Suburban Novelty" is always its best advertiser, be she mistress, maid or cook.

NOVELTY KITCHENER

800 SERIES

There is no doubt about the demand for a range of this type; its popularity is sufficient proof. Your neighbor will tell you that it is plain, dignified and beautiful in appearance as well as heavy, durable and perfectly manufactured.

This Range can be supplied with Left or Right Hand Oven and with Swing or Drop Oven Door. Style G signifies Swing Oven Door, Top End Shelf, Nickel Top Band and Front Feed Door. Style C signifies Drop Oven Door, Top End Shelf, Nickel Top Band and Pouch Feed Door.

When Range is to be used for soft coal, iron linings and Triplex Grate should be specified. Unless this is done, brick linings and Duplex Grate will be supplied as part of the regular equipment.

This "Novelty Kitchener" can be furnished without Waterfront or Thermometer. It is regularly supplied with Ash Pan and a convenient Low Closet below the oven.

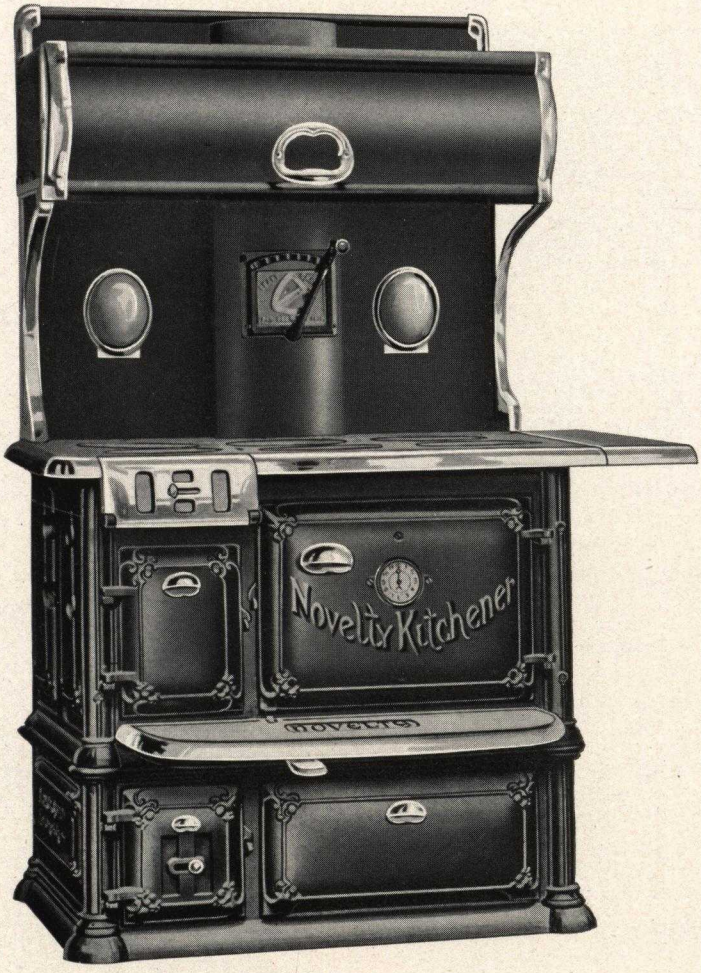
NOVELTY KITCHENER



800 SERIES

STYLE G—FORM P
WITH No. 8 HIGH CLOSET AND END SHELF

The swing door type, as shown here, is extremely popular and very ornamental, having a beautiful, large, removable, full-nickeled outside oven shelf, the full width of the Range.

NOVELTY KITCHENER

800 SERIES

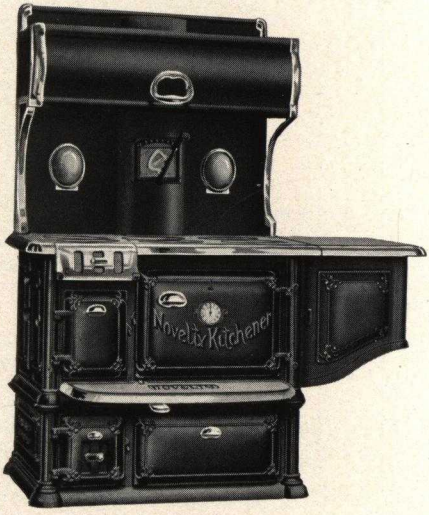
STYLE C
FORM O-A, WITH No. 125 STEEL
HIGH SHELF AND END SHELF

The trend of the times is toward cleaner kitchens.

All our Cabinet Ranges can be equipped with the famous Novelty Ash Chute.

This Chute does away entirely with the handling of the ashes in the kitchen, and it is worth ten times the cost.

STYLE G
FORM P, WITH No. 8 HIGH CLOSET
AND RESERVOIR



DUPLEX NOVELTY

The "Duplex Novelty" is the "last word" in combination gas and coal ranges.

It is built right; compact, easily installed, oven burners operate from the front, no burners to remove from the OVEN when you want to use coal.

Use coal OR Gas when you wish.

Use coal AND Gas at the same time, if you wish.

The Duplex Novelty is built to last a lifetime.

Every Duplex can be equipped with the Novelty Draft Check. (This is the CHECK that pays for the Range).

The Novelty Copper Coil Gas Water Heater can be attached to the Duplex Novelty at any time.

The regular equipment includes Duplex Grate and Brick Linings. Iron Linings for soft coal can be had when specified.

Equipped with Open Grids for manufactured gas, and with Closed Top for natural gas.

It is not necessary for the owner to be a mechanic and to spend hours at the dirty work of changing the Range for use with different fuels.

The Duplex is ALWAYS ready.

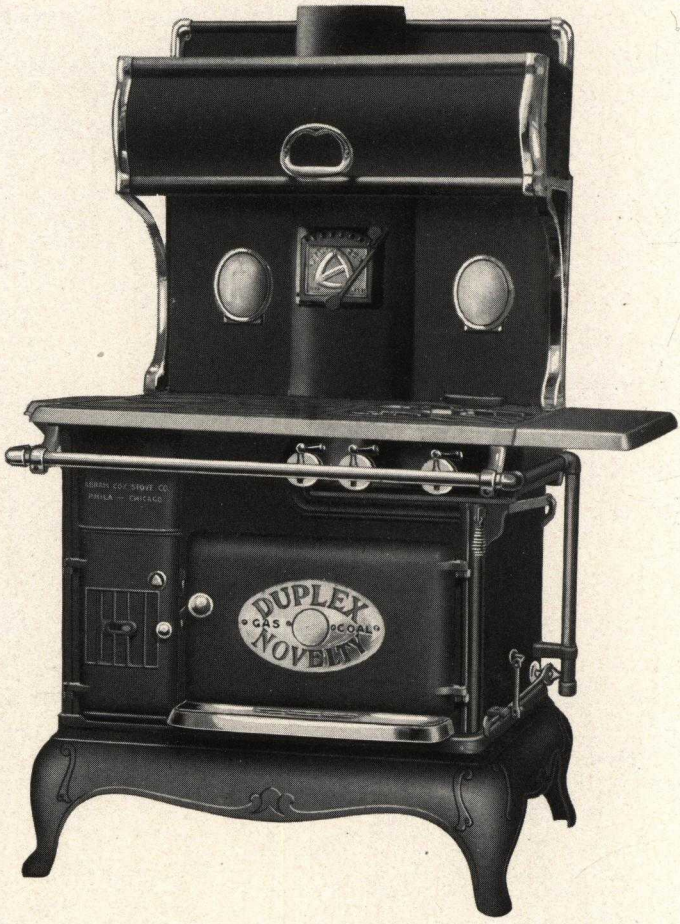
DUPLEX NOVELTY



WITH No. 8 HIGH CLOSET

No. 138, Manufactured Gas.

No. 148, Natural Gas.

VALLEY NOVELTY

An old favorite, improved in appearance and efficiency. Otherwise it is the same high-grade range so popular for the last twenty-five years. The quality of the material and workmanship never varies. It will deliver unvarying results under the severest daily usage, not merely for a few years. but for a generation.

The Firebox is large and lined throughout with brick, or, if soft coal is used, with cast linings. The Sheet Flues are easily cleaned, and the Ash Pan and Ashpit are of ample size.

The Duplex Grate is always furnished for burning coal, but complete wood fixtures can be supplied.

The "Valley Novelty" is made only with Right-hand Oven.

Style H designates Loose Hearth and Swing Oven Door.

Style K designates Deep Hearth and Swing Oven Door.

Style M designates Blind End and Drop Oven Door and Drop Wood Door.

REGENT NOVELTY

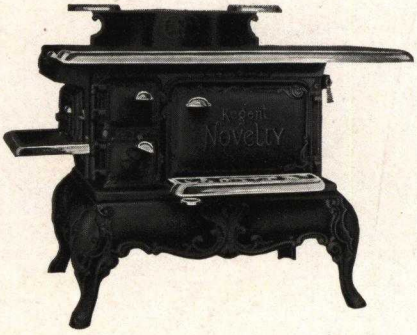
STYLE E
LOOSE HEARTH, SQUARE, WITH No. 116 HIGH SHELF

This is one of the most popular ranges on the market today, because it is structurally correct, of proven durability—the capacity to stand years of service—and of such artistic merit that there is never any question of the discriminating purchaser's choice.

It is one of the best ranges ever produced at any price.

REGENT NOVELTY



STYLE E
LOOSE HEARTH, SQUARE,
WITH No. 115 TEA SHELF

The semi-plain ornamentation of the "Regent" is wonderfully popular with a great many people.

Built for hard usage and economy in the use of fuel.

Removable nickel on 16 in., 18 in. and 20 in. sizes.

Made with Right-hand Oven only.

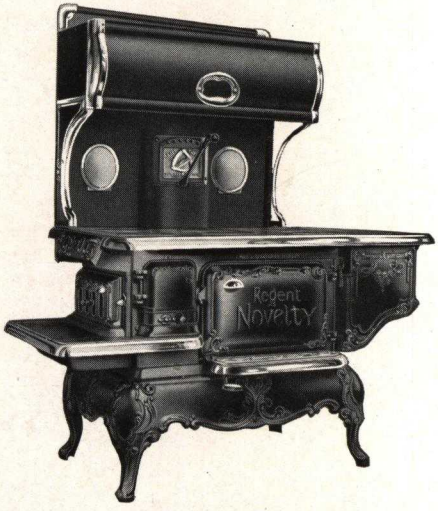
The "Country Regent"—with Reservoir.

The "Regent" Reservoir does not detract from the beauty of the Range.

It is extra large with White Porcelain-lined Tank.

The deep End Hearth type has an extra large Ashpit.

STYLE D
DEEP HEARTH, WITH RESERVOIR
AND No. 8 HIGH CLOSET



REX NOVELTY

"The Best Leader Ever Built—Bar None"

We say without hesitation, this is the best-low-priced Range on earth, and we are prepared to prove it.

It has the appearance, the smooth castings, and as much care in mounting and finishing as the highest priced Range we build.

It has a good, big firebox and the duplex grate is removed through the ashpit without disturbing any other part of the firebox.

It has a pouch feed and big top, as well as an oven that works perfectly under the most trying conditions.

Full Sheet Flues and Top Damper.

Made with Right-hand Oven only, and regular equipment includes Duplex Grate and Brick Linings.

Can be furnished with Basket Grate and Iron Linings when specified.

Style H signifies Portable or Loose Hearth.

Style K signifies Deep End Hearth.

REX NOVELTY

STYLE H
WITH No. 121 HIGH SHELF.

We have confined the production of this Range to two sizes, viz: 16 in. and 18 in. ovens only, and by doing this, we are enabled to build a better Range for less money and offer the consumer a kitchen appliance far superior to anything ever shown before in its class.

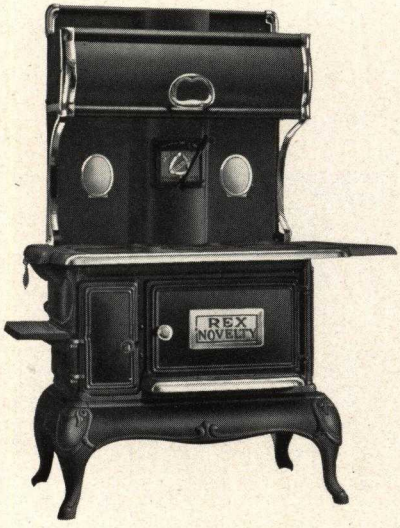
Nothing is slighted in the finish or interior construction.

REX NOVELTY

STYLE K
WITH No. 116 TEA SHELF.

Better results with less fuel—a wonderful baker, full size square oven.

STYLE H
WITH No. 8 HIGH CLOSET.



The Firebox is deep and properly constructed; fitted with brick linings for hard coal or with iron linings for soft coal. Good looking, sanitary and exceptionally easy to operate.

FALCON NOVELTY

If it is a low price you are after, the "Falcon Novelty" will fill the bill.

And we guarantee the Range, just as we do all ranges bearing the name "Novelty".

We are just as particular concerning the materials, finish and mounting as we are with the higher priced ranges.

The oven door is very deep and adds greatly to the appearance of this Range.

Fitted with Basket Grate and Iron Linings for the soft coal trade when specified.

Regular equipment for No. 26 "Falcon" includes Flat Grate and Brick Linings.

Regular equipment for No. 27, No. 28, and No. 48 "Falcon Novelty" Ranges includes Duplex Grate and Brick Linings.

Waterfront can be furnished for No. 27, No. 28 or No. 48.

Made with Portable or Loose End Hearth and Right-hand Oven only.

No.	Covers	Oven	Size Pipe Collar
26	5–6 in.	14 in.	5 in.
27	5–7 in.	16 in.	7 in.
28	5–8 in.	18 in.	7 in.
48	6–8 in.	18 in.	7 in.

No. 116 Tea Shelf, No. 121 High Shelf, (nickel trimmed) and Waterfront can be furnished when specified.

Special—We furnish this Range with a Fancy Name Plate "Fashion Novelty." Many prefer this style.

FALCON NOVELTY

WITH No. 116 TEA SHELF.

A handsome and well balanced low-priced Range. Loose nickel band and ornamented just enough.

WITH No. 121 HIGH SHELF.

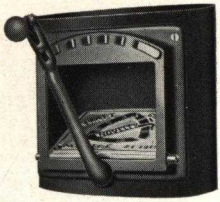
Made with Right-hand Oven only.

It is in a class all by itself when the price is considered.

Has reversible flue collar and the damper is controlled from the front of the Range.

NOVELTY DRAFT CHECK

"The Check That Pays For The Range"



The Novelty Draft Check is to be had only on Novelty Ranges.

The Novelty Draft Check makes what is already conceded to be the best line of Coal Ranges on the market; absolutely the best investment you can make in kitchen appliances. Again, we say it pays for the Range.

Talk about reducing the high cost of living—here's the longest step in that direction.

Can be adjusted to suit any draft and it will "Stay Put" at any angle.

Adjusted by a lever with a cold handle—simple to operate—you cannot go wrong.

Will hold fire in a closed range.

Leave the lids on—no gas can get into your kitchen—keeps the heat in.

Will force you to save fuel—no need to pack your stove full of coal every night.

When the patented damper flap is all the way down, there are two gas pockets to allow the coal gas to go where it belongs—up the chimney. Your health is preserved.

The Novelty Draft Check is part of the regular equipment of all Novelty High Closets and can be attached to the first joint of pipe on any Novelty Range using tea or high shelves.

Again—we say the Novelty Draft Check is worth its weight in gold and will save that amount during the life of the "Novelty" Range to which it is attached.

"The Check that Pays for the Range."

NOVELTY BASE BURNERS

Novelty Base Burners have been a specialty of ours for many years.

We have always maintained the highest possible standards for appearance, workmanship and efficiency.

Our Base Burners contain every improvement that can be put on heaters of this type.

The firepots and grates are removable without disturbing any other part.

All doors are ground and fitted absolutely tight.

Have smooth-acting dampers. Large, clear circulating flues.

All nickeled parts are triple-plated, brilliantly polished and removable. They will not tarnish from the heat.

Tight-fitting Gas Covers on all Novelty Base Burners.

The Novelty Base Burners will extract and radiate all the heat from every pound of coal consumed.

The Novelty Base Burners were evolved through a series of practical tests and from information gathered from many sources during a period covering many years.

Now, a Novelty Base Burner is a most satisfactory investment both for the dealer and the consumer.

We issue a special circular giving full details of construction, etc., for our Base Burners, and will gladly send you a supply at any time.

Nut or Pea Coal.

VESPER NOVELTY

The " Vesper Novelty " is the result of years of experience in the making of good-looking, well-built and efficient Oak Heating Stoves.

Has Nickel-plated Base, Screw Drafts, Skirts, Side Wings, Top Ring and Urn Base

The " Vesper Novelty " is a powerful double heater or circulator, the hot air for upstairs heating being gathered from a large part of the area of the back, with the intake immediately above the rear of the Firepot.

The large Register Wheel or Draft Check in Feed Door is provided with mica illumination to two of its openings, the other being available as a check draft.

The Grate consists of two triangular bars which are operated from the side, and a narrow shaking ring, which is operated from the front. This Grate is the best ever used in an Oak Stove. The shaking ring is as narrow as the construction will permit, so that the only part of the Grate that need to be used, except in very cold weather, is the triangular bar section. The entire Grate can be easily and quickly removed without the use of tools.

The body of the " Vesper Novelty " is attached to the Firepot and to the Top in such manner as to insure absolute and permanent tightness. The fastening of Body to Firepot is anti-buckling and provides perfectly for expansion and contraction.

The Ashpit and Ash Pan are extremely large and dust-proof. All " Vesper Heaters " are made with Heavy Blue Steel Body.

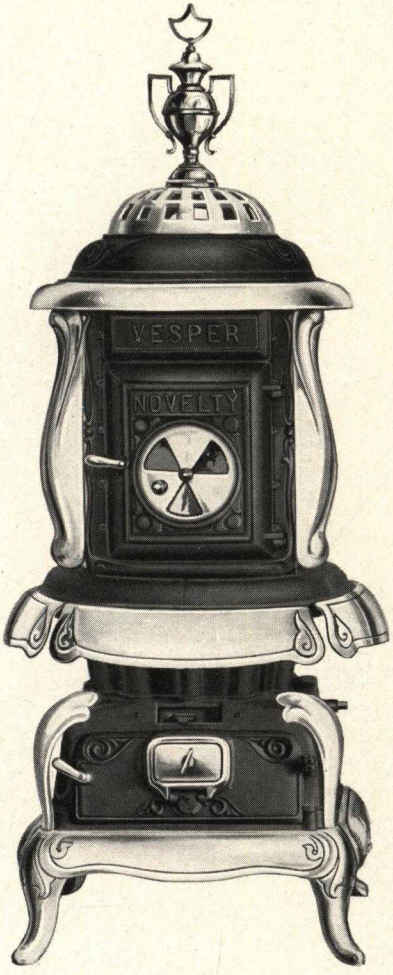
The 14-inch, 16 inch and 18-inch sizes are equipped with Heavy Slotted Firepot.

Our Slotted Firepot furnishes air just where it is needed to consume all the gases and adds one-third to the heating capacity of the stove, as well as using at least one-third less fuel.

No.		Flue Pipe	Hot Air Pipe	Firepot	Height to Base of Urn
12	Single Heater	5 in.	6 in.	12 in.	42 in.
14	" "	6 in.	7 in.	14 in.	46 in.
16	" "	6 in.	7 in.	16 in.	48 in.
18	" "	6 in.	7 in.	18 in.	54 in.
120	Double "	5 in.	6 in.	12 in.	42 in.
140	" "	6 in.	7 in.	14 in.	46 in.
160	" "	6 in.	7 in.	16 in.	48 in.
180	" "	6 in.	7 in.	18 in.	54 in.

Numbers 12, 14, 16 and 18 can be equipped with Magazines and Full Brick Linings when specified.

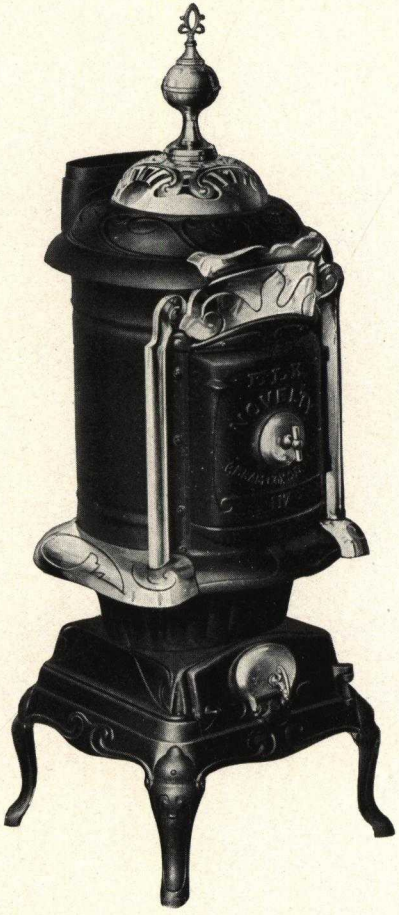
VESPER NOVELTY



The Novelty Slotted Firepot will outwear any two ordinary Firepots such as are found in many Oak Heating Stoves.

If you want to be sure, buy a "Vesper."

ELK NOVELTY



This low-priced Oak is made with the same care as the highest grades. It is a real Air-Tight stove when closed and will keep fire over night. Has heavy draw center grate with shaker bar operated through ash door. Magazines furnished for No. 115 and No. 117.

Made in four sizes. Nickel trimmed. All nickeled parts removable.

No.	Flue pipe	Firepot	Height to Bottom of Urn
111	4 in.	9 in.	35½ in.
113	5 in.	11 in.	37½ in.
115	5 in.	13 in.	41½ in.
117	6 in.	15 in.	44 in.

TROPIC NOVELTY

The "Tropic Novelty" Hot Blast is the acknowledged leader in construction, efficiency and appearance.

It is priced as low as the most ordinary of its competitors. Will hold a hot fire for 24 hours, save one-third of fuel, has top hot blast draft, tight doors and screw draft, extra heavy circular cast firepot, large feed door, heavy full cast top and bottom,

Beautifully nickel trimmed.

Diameter of Firepot
14 in.
16 in.
18 in.

GEM NOVELTY

The "Gem Novelty" Heating Stove is an old favorite. It is a veritable little giant and has made an everlasting reputation for cleanliness, utility and economy.

Equipped with Draw Center Grate.

Compact, easy to handle and popular priced.

No.	Flue pipe	Firepot	Height
9	4 in.	9 in.	39 in.
10	5 in.	10 in.	41 in.
11	5 in.	11 in.	43 in.
12	5 in.	12 in.	45 in.

ALASKA NOVELTY

The "Alaska Novelty" represents the survival of the fittest in large cylinder heating stoves. Can be had with or without fender. A big, heavy heater, built for service and extremely well-balanced. Has an extra Ashpit, Duplex Grate and Mica Paneled Feed Door. Has heating space with lid on top. If it is Heat and Service you want—buy the "Alaska."

No.	Flue pipe	Firepot	Height
15	7 in.	15 in.	41 in.
17	7 in.	17 in.	45 in.
20	7 in.	20 in.	50 in.

DANDY GLOBE

The "Dandy Globe" Heating Stove is built like Gibraltar and priced so low that it is cheap even when compared with the lightest and most flimsy Globe Stove on the market. We make it as a leader and build it as well as we know how. Has cooking hole on top and a Draw Center Grate. The Ashpit is roomy and tight.

No.	Flue Collar	Height
10	5 in.	30 in.
11	5 in.	31 in.
12	5 in.	32 in.
13	5 in.	34 in.
14	6 in.	36 in.

HANDY LAUNDRY

Some laundry stoves are built along lines that suggest temporary use only. Not so with the "Handy Laundry." It is built for heavy service and to last a lifetime.

Has an extra large top with two big 8-inch lids. Lots of room for the fire and a big Ashpit.

Equipped with Draw Center Grate and Pouch Feed.

No.	Size of Top	Flue pipe
12	18 x 20	6 in.

TOWANDA, PENNSYLVANIA.

The County Seat of Bradford County, and the most up-to-date and progressive town in Northern Pennsylvania. The population is 5,000, all good, industrious and well to do people.

School system is unsurpassed in any town of its size. Good Business College, fine free Public Library. Several splendid Social Organizations. Secret Societies well represented. Nothing to be desired in educational or social branches.

Eight churches of as many denominations afford excellent religious opportunities for all creeds and classes. Each church bids you a hearty and brotherly welcome. Each church has trained choir equal to the best.

TOWANDA—Is finely located on the picturesque Susquehanna river, in the highlands of Northern Pennsylvania, one of the most beautiful spots in all creation. Three railroads—Lehigh Valley, Susquehanna & New York and Williamsport & North Branch. Eleven mail routes running out of Towanda in all directions reaching prosperous farming communities. Fine public water system—pure spring water from mountain springs. Finest volunteer fire department in the country—five companies. Up-to-date newspapers; modern theatre, two National Banks with deposits of over two million dollars; splendid stores and good markets with plenty of fresh country produce from farms nearby. And best of all, a fine and healthy climate. There is no better place on earth in which to anchor than Towanda, Pa. We want more factories and more people. Cheap fuel, cheap electric power; coal mines nearby; everything favorable. It will pay you to investigate Towanda. Write the BUSINESS MEN'S ASSOCIATION, TOWANDA, PA.

MEMORANDA

MEMORANDA

ABRAM COX STOVE CO.

We want you to know about two NEW and IMPORTANT additions to the " NOVELTY LINE."

They are The " NOVELTY LAUNDRY STOVE " and The " NOVELTY TANK HEATER."

The " NOVELTY LAUNDRY STOVE " is positively a very decided improvement over any other appliance of its kind made. It is equipped with a Brick Lined Fire Pot below the water section. The advantage of this construction is that you can maintain a live fire for a longer period and utilize ALL the heat in the fuel, on account of the water heating surface not coming in contact with the fire at the grate level. The fire can be completely checked by means of a check-draft on the back. To our knowledge, the " NOVELTY " is the only Laundry Stove so equipped The " NOVELTY " will hold eight (8) irons - either the flat iron or the sad iron type, and will give a plentiful supply of hot water (from 40 to 80 gallons) quickly and economically. This double function of the Stove is so well regulated that both the heating of irons and the heating of water will satisfy the most critical user. The two operations will at no time interfere with, or increase the fuel expense, of the other, After many experiments, we are positive that we are offering a Laundry Stove. that will establish a precedent for EFFICIENCY, ECONOMY and DURABILITY.

The " NOVELTY TANK HEATER " is a piece of goods of unusual merit. Its water section is directly over the fire and the fire travel is so baffled that the maximum amount of heat units are utilized. Its Brick Lining and Draft-Check, offer the same advantages as explained in connection with the LAUNDRY STOVE. Two shovels full of coal a day will operate The " NOVELTY TANK HEATER " and will be sufficient to supply the entire household with hot water. We present The " NOVELTY TANK HEATER " to you with a great deal of confidence, because ACTUAL TESTS here in our foundries justifies our saying that it is the MOST EFFICIENT and yet the MOST ECONOMICAL Tank Heater on the market.

The " NOVELTY LAUNDRY STOVE " and The NOVELTY TANK HEATER " are made of the some grade pig iron that goes into our high-grade " NOVELTY "Ranges. Like all other " NOVELTY " products they bear the "ear marks of distinction."

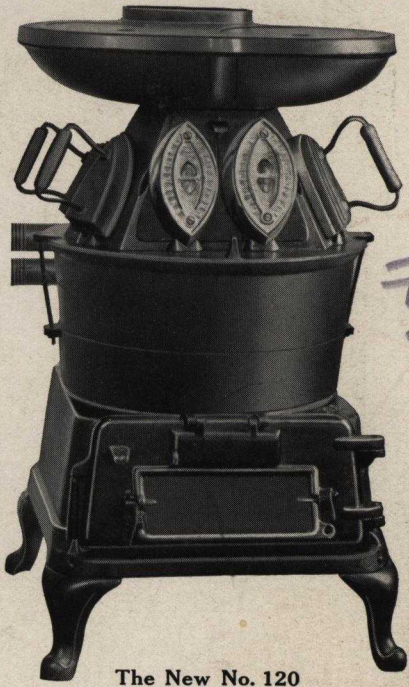
These goods are the NEWEST and BEST in their respective fields. We have elliminated all unnecessary and intricate parts, and have put into them the same KNOWLEDGE, EXPERIENCE and ENERGY that has made the name " NOVELTY " justly famous.

From a saleable standpoint these goods are ideal. The consumer will readily appreciate and understand their LABOR SAVING and MONEY SAVING qualities.

When our salesman calls on you, arrange to get more information about these goods, or write us direct.

Yours truly,

"NOVELTY" LAUNDRY STOVES AND TANK HEATERS



#24

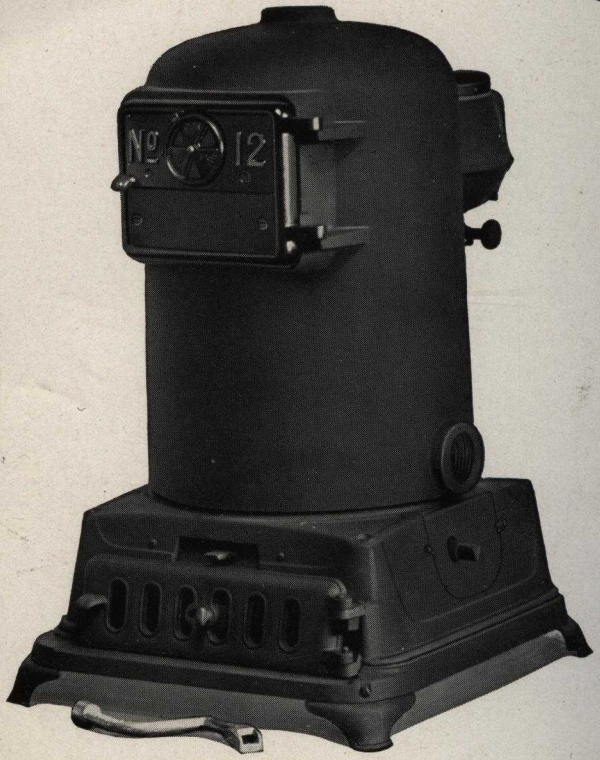
The New No. 120

LAUNDRY STOVE

Original in Design and containing many Distinctive Features

#24

ABRAM COX STOVE COMPANY



THE No. 12 TANK HEATER

A Giant in Capacity — A Dwarf in Price

THE NEW No. 10 TANK HEATER

Different and Better than any other small sized Tank Heater

THE "NOVELTY" line of Tank Heaters and Laundry Stoves contains more Distinctive Features than any similar Appliances made. The Fire Pots are deep, and, in the new Tank Heater and new Laundry Stove, are lined with brick, thus insuring Perfect Combustion. This feature guarantees High Efficiency with Low Fuel Consumption. The Fire Travel is better and there is more Heating Surface. The Ash Pit is extra deep and the Feed Door large. The Fire can be controlled perfectly by means of Balanced Draft and Check Doors.
